PROFESSIONAL SUMMARY

Full Stack Web Developer with 5+ years of experience building scalable web applications across HR, payroll, and internal systems. Proficient in Laravel, JavaScript, and system integration with a focus on performance and maintainability.

WORK EXPERIENCE

UMB Techno Creative (October 2019 – Present)

Payroll

Developed an automated salary calculation platform including Indonesian PPh 21 tax handling, dynamic benefit/deduction formulas, and asynchronous queue processing.

Scholarship System

Built a scholarship application and monitoring platform with dynamic forms and program-specific validation.

SIMSDM

HR Information System with employee performance evaluation module.

API eSDM Mobile

Created attendance API with GPS-based validation, leave system integration, and Firebase push notification.

Internal Tools

Maintained UMY-s web application and contributed to various internal application enhancements.

EDUCATION

Universitas Siber Asia (In Progress) - Bachelor's Degree in Informatics Engineering (Online Learning)

SMK Negeri 1 Lumajang (Graduated 2019) - Vocational High School in Software Engineering
